Working in the Liberian Southeast, we aspire to be among the best Oil Palm developers in the global industry. We stand to be measured on eight key values.

- 1. Successful Investing**, meeting the expectations of investors and funders
- 2. Ending Rural Poverty** and bringing the beginnings of long term prosperity, education and health to communities where we develop
- 3. Preserving the Natural Environment**, helping conserve flora, fauna, water and carbon in Liberia
- 4. Respecting Community Self-determination**, sovereignty, culture and traditions of our hosts, through free, prior and informed choice of communities to work with us and preserving their sacred heritage
- 5. Developing the Skills and Careers** of our Liberian employees and suppliers, especially of the people originating from our partner communities
- 6. Practicing the Best Methods of Legal Compliance**, regulatory adherence, procedures and Oil Palm agriculture, founded on highly developed skills, systems and attitudes
- 7. Building Value Added**, helping the country of Liberia escape a traditional role as a supplier of cheap raw materials
- 8. Continuing Improvement** and betterment in what we do, with engagement of credible organizations who share all or some of these objectives, whether partnering with us, challenging us, or critical of us.

A Brighter Future for Liberia
